Program Guides by Major

As of October 28, 2026

Every guide follows Rowan University's published program guide for that major: 120 credits, the major's named courses, Rowan Core literacies and Rowan Experience. The student closest to finishing is S203 (Psychology), projected for Spring 2027; S217 and S218 have GPAs below Rowan's 2.00 graduation minimum.

Majors

Major	Degree (program)	Students	Closest to finishing	GPA below 2.00
Computer Science	Bachelor of Science (O701)	S200, S207, S212, S220	S200, Spring 2028	—
Mathematics	Bachelor of Science (O702)	S202, S205, S213, S222	S202, Fall 2027	—
Psychology	Bachelor of Arts (O705)	S203, S208, S211, S218	S203, Spring 2027	S218
Exercise Science	Bachelor of Science (0849)	S204, S210, S217, S223	S204, Fall 2027	S217
Art Education	Bachelor of Arts (1000)	S201, S209, S216, S221	S201, Spring 2028	—
Music Industry	Bachelor of Science (O706)	S206, S214, S215, S219	S206, Spring 2029	—

All students

S223	Exercise Science	Fall 2026	First-year	3	104	Spring 2030

How the guides were built

- **Requirements** come from each major's Rowan program guide, linked at the top of its section. Every degree is 120 credits, and each guide's own grade rules are applied (for example C- or better for Math and Art Education courses).
- **Matching** is by Rowan course code. A course whose code isn't on the program guide counts only as a free elective. Computer Science is hit hardest: courses like Operating Systems (CS 05100) and Computer Organization (CS 03351) don't carry Rowan's codes (CS 04390, CS 06205), so even S200 still needs 37 credits of named CS and math courses.
- **Three same-course code differences** are treated as matches: Public Speaking (COMM 01100 = CMS 04205), General Chemistry I (CHEM 01100 = CHEM 06100) and Intro to Instruction & Assessment in the Art Classroom (SMED 01282 = EDUC 01282).
- **Rowan Core and Rowan Experience** attributes come from the transcript tags (HUML, ARTL) plus course families: math and statistics for Quantitative, lab sciences for Scientific, World History or Spanish for Global, Introduction to Literature for LIT. These can overlap with other requirements and add no credits of their own.
- **Plans** start in Spring 2027 at about 15 credits a term and assume every current course is passed. Music Industry internships go in summers, Art Education student teaching takes the whole final term, and the Exercise Science internship comes last.
- **Minors** (Psychology, Entrepreneurship, Philosophy) are noted on each guide but not tracked.

Computer Science (BS, program O701)

Requirements follow the Rowan B.S. Computer Science program guide (effective Fall 2018): 120 credits. C- or better in Calculus I, Discrete Structures, CS 04113, CS 04114, CS 04222 and Computer Organization; 2.0 cumulative GPA. Courses are matched by Rowan course code, so several CS courses on these transcripts (Operating Systems CS 05100, Computer Organization CS 03351, Software Engineering CS 05000) count only as electives.

Program requirements

Requirement	Courses	Credits
CS foundational courses	Intro to Object-Oriented Programming (CS 04113); OO Programming & Data Abstraction (CS 04114); Data Structures and Algorithms (CS 04222); Computer Organization (CS 06205); Foundations of Computer Science (CS 07210); Discrete Structures (MATH 03160); Calculus II (MATH 01131); Linear Algebra (MATH 01210); Probability & Statistical Inference for Computing (STAT 02290)	31
CS upper-level & capstone	Programming Languages (CS 04315); Operating Systems (CS 04390); Principles of Digital Computers (CS 06310); Digital Computer Laboratory (CS 06311); Software Engineering I (CS 07321); Design and Analysis of Algorithms (CS 07340); Senior Project (CS 04400)	19
CS restricted electives	CS restricted electives (12 cr)	12
Non-program courses	Calculus I (MATH 01130); Computers and Society (WI) (INTR 01266); Lab science: BIOL 01104, CHEM 06100 or PHYS 00220 (4 cr); Authorized lab science (4 cr)	15
Rowan Core: communicative literacy	College Composition I (COMP 01111); College Composition II (COMP 01112); Public Speaking (CMS 04205)	9
Rowan Core: other literacies	One course with each attribute: Artistic, Global, Humanistic, Quantitative, Scientific. These can overlap with other requirements.	—
Rowan Experience	One course with each attribute: Broad-based literature, Writing intensive, Rowan Seminar. These can overlap with other requirements.	—
Free electives	Any courses; use them for Rowan Core or Rowan Experience attributes not met elsewhere	31

- Rowan B.A. Psychology program guide (Fall 2022)

Exercise Science (BS, program 0849)

Requirements follow the Rowan B.S. Exercise Science program guide (Fall 2025, 8-semester): 120 credits. 2.0 cumulative GPA; all 300/400-level major courses must be taken on the Glassboro campus. The 6-credit internship comes in the final term. Biology for Science Majors (BIOL 01100) on these transcripts is not one of the guide's science courses, so every student still needs the two Foundations in Biology courses (MCB 01101 and 01102).

Program requirements

Requirement	Courses	Credits
Exercise science major core	Foundations of Exercise Science (HES 00105); Safety, First Aid & Athletic Injuries (HES 00116); Essentials of Strength Training (HES 00201); Basic Nutrition (NUT 00200); Motor Control and Learning (HES 00243); Exercise Physiology for Health Care Professionals (HES 00349); Research Methods in Exercise Science (WI) (HES 00302); Introduction to Biomechanics (HES 00346); Health Behavior Theory and Counseling (HPW 00350); Exercise Prescription (HES 00401); Nutrition for Fitness (NUT 00415); Advanced Exercise Physiology (HES 00360); Human Disease and Epidemiology in HES (HES 00348); Exercise for Special Populations (HES 00412); EKG Interpretation & Basic Pharmacology in HES (HES 00402); Senior Seminar in Exercise Science (HES 00413); Applied Biomechanics (ATR 00347); Facility & Program Management in Wellness (HPW 00360); Senior Internship in Exercise Science (HES 00484)	61
